

We continue to sound the alarm on the devastating changes St. Joseph management made to...

THE MATRIX

Senator Portantino pictured with SEIU Local 121RN and SEIU-UHW members on Friday, August 3, 2018

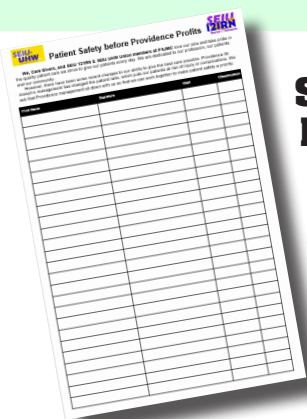

At our urging...

California Senator Anthony Portantino came to hear what's going on!

Since the hospital has not reversed the staffing cuts, RNs and CNAs decided that our local State Senator needed to learn more about the effects of the cuts. He was very moved by our descriptions of patient harm and staff injuries. In fact, he agreed to get involved to ensure that this important community resource remains just that: a critical, effective,

life-sustaining community resource! We asked the Senator to urge hospital management to hold a Patient Classification Systems meeting with us to discuss any proposed staffing changes. We also asked him to write a letter to management in support of our call to reverse the cuts. He agreed to both these requests to support our push for safe staffing.
